Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Geographic Research ~~CONFIDENTIAL~~ DATE: 13 July 1953

FROM : Acting Chief, Geography Division

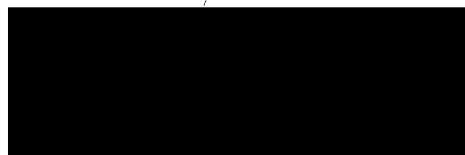

SUBJECT: Meeting with the Air Force and DD/P Personnel on the Evasion Geography Program

Present: Major Rosentreter Headquarters, USAF
 Capt. Kimler " "
 Capt. Bouze " "
 Dr. D. O'Brien Air University
 25X1A  DD/P
 " D/GG

1. It was agreed by the members of the meeting that of the 39 evasion geographies which D/GG offered to produce, 18 might well be dropped. The 18 to be dropped are those which will be covered by the larger and more detailed studies to be published by the Air University (for the production of the Air University see attachment). This leaves D/GG with 21 evasion geographies to be produced. These will be completed by the end of 1954, a date satisfactory to both the Air Force and DD/P (see attached tentative production schedule for evasion geographies.)

2. The high point of the meeting as far as the evasion geography program is concerned was that the Air University agreed to submit to D/GG for our critical review all of the studies in draft form so that our suggestions and corrections may be incorporated into the final product. This was done in order to forestall any discrepancies which may occur between the Air University studies on one hand and our "A" and "B" Area studies on the other.
